

CURRENTS AND COXCOMBS

The idea for this design must have been passed around more than any actual pattern ever was—there are so many versions and no two exactly alike. We have presented both to fit 17 or 18-inch blocks. Version B is an easier design to execute than Version A. In A the blocks are hung on the diagonal with alternate plain blocks and, as the border can be 12 inches wide, there will be fewer blocks to appliqué.

For each Version-A block cut:

40 inches of 3/8-inch green bias
(finished width)

1 red #1

8 red #2

24 red #3

20 green #3

4 green #4

4 red #5

#4
