

KITE VARIATION
As shown on p.15b

The colors have faded so from this amazing old pieced quilt that it is hard to tell what a wonderful explosive design is hidden in the faded greens, golds and reds. The 18-in. blocks can be sashed or set edge-to-edge with equally good results, though if the sashes are omitted, as was the case in the original, there should be a secondary pattern that would add to the excitement.
